Problem Statement

Matthew Perez

There are not enough quiet study spaces on campus. There are numerous buildings on campus filled with classrooms, yet it remains challenging to find a suitable spot to study. Some will say go to the library, but often it is out of the way, and many students don't have time to go all the way to the library. Your best option is to try and get lucky and find an empty classroom, but even then, that is still hard because they are being used most of the time. There needs to be set quiet areas in every building so that students can study or do work in a productive environment.
